

WORLD OF RADIO #1149, produced September 23, 2002 by Glenn Hauser

- *Standard disclaimer
- *One of our broadcasts on Studio X, Momigno, Italy, 1584 kHz moved to Sunday 1930 UT; still Friday 2230 UT
- *Individual back issues of DX Listening Digest before July 2002 via: <http://www.dxing.com/dxrold.htm>
- *R. Imperial, El Salvador, again being heard on 17833.16 variable; low power requiring selectivity and sensitivity
- *Something else is around 17837v, weak and unID for months [maybe 3 x 5946v]
- *Banda Oriental, Uruguay, reconfirmed active on 6155 from 0135 sign-on
- *BBC Monitoring publishes another exhaustive study of broadcast, print and internet media, this time about Madagascar, in DXLD 2-149
- *Media Network dossier about hate radio in Africa and elsewhere updated via <http://www.medianetwork.nl>
- *Millennium Voice, clandestine from Britain to Sudan and vicinity still on air but only two days a week, half clashing with Chile
- *B-02 season advance schedules starting to come in; including Salama Radio, religious/clandestine for Nigeria; 15365 to be transmitted from Sackville, if not sooner; March moving to Rampisham, England
- *R. Afrika International has enjoyable program from Vienna Saturday 1530 on 17875; r.africa@sil.at [not .au, surely], r.afrikas@sil.at
- *Not to be confused with R. Africa International, the Methodist station from New York via Germany; two DXers have now managed to QSL the Vienna station by reporting to the wrong station, which also doesn't know the difference; see DXLD 2-147, 2-149 under Austria
- *Methodist RAI heard on 15265 at 1700 in English
- *R. Yugoslavia quickly resumed SW broadcasts after last week's announcement; not all language services ready: recording of interval signal, then turned off [at 1631]; English to North America at 0000 except Sundays when Serbian is extended, on 9580; recording of return-to-SW announcement; repeat at 0430 daily has some adjacent interference
- *Gain some, lose some: Bayerischer Rundfunk plans to cease SW 6085 January 1; maybe back in two or three years with DRM mode; don't confuse with DW also on 6085
- *Higher frequency propagation improving with autumn, such as travel info station in France on 25775.1 with English/French tape loop about Normandy; not TIS FM on 11m heard last year from La Rochelle; even I heard traces, so a lot more than one watt; also heard in Finland and Sicily, too close to France for 11m propagation? Gave phone number starting with 33- for France
- *Radio Free Europe Czech language service closing Sept. 30 after 52 years, lately domestically, not SW
- *The media magazine you monitor with your mind, World of Radio 1149, P O Box 1684, Enid, OK 73702, USA or wghauser@hotmail.com Fax if really necessary 1-580-233-2948 attn Hauser; check our website for

info on all our broadcasts, access to DX Listening Digest:

<http://www.worldofradio.com>

- *Thanks this week for financial support to Gerald T. Pollard, NC
- *Radio Maryja, controversial Polish Catholic station, recording of English ID giving schedule via Russia
- *Radio Sawa, Cyprus, moving from 981 to 990, not heard on either by some Europeans, but yes heard by others; has a deep null at 320 degrees, near Istanbul, Bulgaria, Central Europe, Prague, Amsterdam, Glasgow, Goose Bay, Detroit, Austin
- *US PsyOps operation for/from Afghanistan: definite IDs are sorely lacking on 8700 and 6100; we are only making assumptions
- *18940 running continuous 24-second dramatic musical loop; filler for missing R. Afghanistan feed via Norway? Recording
- *Radio Dat, clandestine for Kazakhstan, changes to 9925 for 1500 UT broadcast; 0100 seems still on 9775 when 9925 has Croatia via Germany
- *Members of Falun Gong cult convicted and jailed in China for disrupting cable and satellite TV broadcasts; several stories re in DXLD 2-148 including how they accomplished this
- *Echo of Hope, clandestine from South to North Korea, QSLed by KBS; automatic, or admitting they are responsible for it?
- *V. of Russia plans to use 2300 kHz for Southeast Asia, Australia? this winter, 250 kW from Irkutsk, 150 degrees, 0600-0900; or mistake?
- *V. of Vietnam, Son Tay site plagued by spurs plus/minus 15 kHz from 6 and 7 MHz nominals
- *Provincial governor of Gulf province, PNG, prepared to take over from NBC, R. Gulf, 3245, which has been off the air for a month; back on later this week
- *Report in June that SW from Greenland is active on 3812, should now be rechecked as fall has arrived and possible propagation; see reports at DXing.com in DXLD 2-093, 2-095, 2-101
- *R. Marti, Delano, 15330, strong in Texas on third harmonic 45990
- *KPM556, Portland OR rasta groove station on 25950, reactivated
- *KIMF, new SW station authorized for New Mexico, no further news on construction, but tentative schedule registered on 11885, 5835, 50 kW southeast into Mexico and beyond
- *Wondering if WRNO gone for good, but heard again, 7354.9 variable, poor modulation but strong; watch out for WYFR later in eve on 7355
- *PanGlobal Wireless new piratish show on WBCQ from Sept 27, Fri 2100 on 7415, Sat 1900 on 17495
- *Another report of digital buzz, IBOC tests interfering with adjacent frequencies: WTOP 1500 Washington heard testing, buzz on 1490, 1495, 1510
- *Ultra Wideband may change the world: using all frequencies at once; see <http://www.pbs.org/cringely/pulpit/pulpit20020124.html>
- *For propagation outlook, see Thomas Giella's site emphasizing MF, <http://www.kn4lf.com/kn4lf5.htm>
- *Glenn Hauser concluding World of Radio 1149
